

Jenver Mike Uddon

Web Developer · BS Information Systems Student

Cavite, Philippines · 0976 338 2196 · jenvermikeuddon@gmail.com · github.com/Snoopydawgs · linkedin.com/in/jenver-uddon

SUMMARY

Student web developer focused on building clean, reliable web systems — from database-backed records systems to responsive front-ends. Comfortable across PHP / MySQL back-ends and HTML / CSS / JavaScript front-ends. Available for part-time, freelance, and commission-based web work.

EDUCATION

BS Information Systems — Kolehiyo ng Lungsod ng Dasmariñas (KLD) Expected 2027
Cavite, Philippines

PROJECTS

Health Management System — Dasmariñas City Health Office 2 2026

Role: Programmer · PHP, MySQL, JavaScript

- Built the back-end and database for a web-based records system that replaced manual, paper-based processes.
- Implemented secure, role-based accounts with modules for patient records, appointments, and health reports.

School Internship Management System — Client Project 2025

Role: Developer · PHP, MySQL, JavaScript

- Developed a system to coordinate student internship placements, requirements, and progress tracking across students, coordinators, and partner companies.

Rise and Shine — Client Project 2025

Role: Developer · HTML, CSS, JavaScript

- Designed and developed a responsive website giving the client's business a clean, professional online presence.

Personal Portfolio 2026

Role: Designer & Developer · HTML, CSS, JavaScript

- Designed and coded an editorial portfolio from scratch with light/dark mode and accessible, keyboard-friendly navigation.
